

NEW!
Easy Weathering
Effects in Seconds

PANPASTEL®

Colors for Models & Miniatures

Models - Rob Manley / Photo - Andrew Cornillie

PanPastel Colors are professional quality artist's pastel colors in a unique pan (cake-like) format.

The special qualities of PanPastel mean that the colors can be mixed, layered and applied "dry" making them ideal for applying realistic weathering effects in seconds; they are also great for adding color to scenery and layouts. They adhere well to most surfaces, yet can be removed easily if required.

- **Mixable** - mix & layer like paint to create an infinite number of custom colors
- **Low Dust** - quick, clean "no mess" alternative to powders and pastel sticks
- **Quick & easy** - no drying or prep. time - colors are instantly ready for use
- **Erasable** - simply erase or clean off the color to change it (prior to fixing)
- **Ultra fine** - highly pigmented color formulations - it's like using pure pigment
- **Realistic effects** - doesn't have a "painted on" appearance once applied
- **Compatible** - with spray fixatives and other flat finishes

Easy, Quick & Clean

No more sanding & grinding
pastel sticks!

A great new way to apply realistic weathering effects & color to:

- ▶ Railroad Models
- ▶ Military Models
- ▶ Miniatures
- ▶ Action Figures
- ▶ Scenery / layouts
- ▶ Structures
